

SUPERBEE WAX WRAPS

1. WHAT WE ARE ABOUT

SuperBee Wax Wraps are a new eco-friendly, naturally, antibacterial product that replace plastic wrap in the kitchen for people who care about the environment.

A strong team of dedicated women from the nearby villages, has helped SuperBee grow rapidly. We focus on eco-friendly, socially responsible choices & strong family values.

Made by BeeConscious Co., Ltd. in the mountains near Chiang Mai, Thailand and founded by Australian expat Antoinette Jackson, who established the business in 2016.

We have FCM, FDA, BPA FREE and GMP certification. Our suppliers are local. Follow GMP and GPA guidelines and some are organic and OTOP certified.

SuperBee Wax Wraps are a washable, reusable cloth, coated in a beeswax solution that is sticky enough to wrap and cover leftovers and food.
